Minuteman

Quick Access Gun Safe

© 2014 Minuteman, Inc.

Minuteman

Patent Pending

Ready at a moments notice and covertly placed, this quick access gun safe is your go to security container when a threat arises.

- Solid steel construction
- UL listed top lit electronic lock
- Biometric lock option
- Secure from wifi, bluetooth or RFID hacking
- No keys to loose or be stolen
- Stand alone security
- Battery accessible on outside
- Firearms are stored muzzle down and ready to deploy
- Motion activated interior light

**Easy access to a long gun,
handgun & flashlight**

**This is the only long gun safe
that actually presents the
gun to you when accessed!**

Minuteman

This may not be your primary safe holding your entire collection, but it is the only safe you will need when a threat comes to your door!

Flange = 49.5" x 17.25" x 2"
Body = 48" x 14.25" x 6"
Weight 100lbs

Easily installs in a wall between studs.

Minuteman Magnum

Bigger and badder than it's little brother. The Minuteman Magnum holds more than ever. Guns store on the door and in the body. It mounts to the floor with four mount holes.

Outside = 50" x 20" x 12"
Weight 170 lbs.

The doors in the Minuteman series are adjustable to hold long guns up to 39" in length.

Built With over 50 years of safe building experience, by HAYMAN Safe Co.
